Experience

Zeber **Aug 2024 – Present**
Web Developer Intern *Remote*
- Engaged in developing and maintaining web applications, focusing on both front-end and back-end components.
- Utilized React.js for dynamic user interfaces, ensuring responsive and user-friendly designs.
- Implemented server-side logic and APIs using Node.js and Express, contributing to seamless data management and integration.
- Collaborated with the development team on real-time project features, version control using Git, and code reviews to ensure high-quality deliverables.
- Optimized application performance through debugging and testing, applying best practices in web development and deployment.
- Gained hands-on experience with modern web technologies, including RESTful services, responsive design, and agile methodologies.

IBM **Jun 2024 – Aug 2024**
Front End Intern *Remote*
- Worked on developing and enhancing the user interface for a food ordering application using React.js and Tailwind CSS.
- Collaborated with a team of developers to implement responsive and intuitive designs, improving user experience and functionality.
- Participated in code reviews and debugging sessions to ensure high code quality and performance.
- Gained experience in integrating frontend components with backend services and APIs.
- Contributed to project documentation and presented progress updates to stakeholders, demonstrating effective communication and teamwork skills.

Technical Skills

Programming Languages: Java, JavaScript, TypeScript
Frontend Technologies: HTML5, CSS, React.js, Next.js
Backend Technologies: Node.js, Express.js, RESTful APIs
DataBase Management: MongoDB (NoSQL)

Education

Maharaja Agarsen Institute Of Technology **August 2022 – May 2025**
B.Tech in Electronics and Communication Engineering
Minor in Machine Learning And Data Analytics *CGPA: 6.7*

Guru Nanak Dev Institute Of Technology **August 2019 – May 2022**
Diploma in Electronics and Communication Engineering *CGPA: 7.9*

Projects

CLIENT-WEB-SOLUTIONS | *MERN Stack* **March 2024**
- Architected a full-stack web application utilizing the MERN stack (MongoDB, Express.js, React, Node.js) to deliver scalable and maintainable solutions.
- Engineered a highly responsive, user-centric front-end interface, optimizing for cross-platform compatibility and performance.
- Designed and implemented robust backend services for secure user data management and seamless transaction handling.
- Integrated RESTful APIs for efficient data retrieval and manipulation, ensuring high-performance database operations with MongoDB.

FOOD-ORDERING-APP | *React.js, Tailwind CSS* **January 2024**
- Developed a dynamic and intuitive frontend for a food ordering platform using React.js and Tailwind CSS, enhancing user engagement.
- Implemented a responsive and mobile-first UI, ensuring a seamless user experience across devices.
- Leveraged state management and reusable components to streamline development and improve application performance.
